8, 12 and 16-Zone Centre in Modular Box AE/C5-8-16

Description

Microprocessor-controlled centre in modular box, manufactured in accordance with EN 54-2 and EN 54-4.

Specifications:

- Modular capacity between 8, 12 and conventional detection zones with active end of line.
- Monitored evacuation outputs.
- Fire and fault relay.
- Zone test mode.
- Control keys and LED status indication.
- Capacity for one 12V /18Ah battery.
- Dimensions: 462 x 345 x 120
