

OUTDOOR SIREN WITH LIGHT

AE/V-ASFE

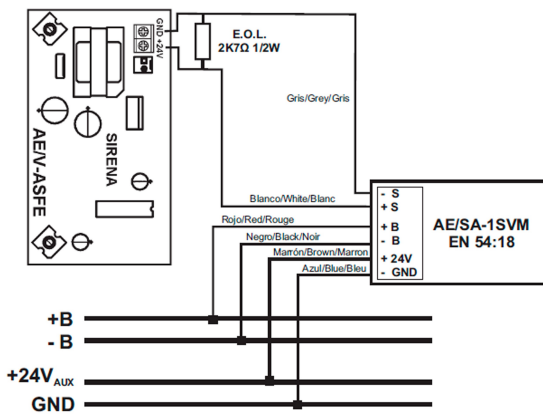

Description

Outdoor siren with light indicator LED.

Dimensions

Wiring diagram

WARNING: The installation and assembly of the siren it must be performed by an authorized installer. Siren indicated for outdoor installation. With the mermaid is attached a sticker with the word FIRE to stick it on the cover.

AE/V-ASFE	
V _{in}	12 ~ 30 Vdc
I _{max}	90mA - 24V
S	95dB/1m
T	-40°C - 85°C

TECHNICAL CHARACTERISTICS

Dimensions:	310 X 230 X 60 mm
Weight:	1.10Kg
Power:	12 - 30 Vdc
Consumption:	90mA at 24Vdc
Acoustic Power:	95dB at 1m
Frequency:	3.1 - 3.8Khz
Led Indicators:	2 LEDs
Wire size for terminals:	0.4mm-2.00mm
Temperature range:	-40°C to 85°C
External measurements:	210 X 230 X 60 mm
Relative humidity resistance:	93 +/- 3% at 40°C
Protection:	IP54
Material:	ABS
Color:	Red
