

SIREN WITH FOCUS FOR INDUSTRIAL USE

AE/V-ASFIND

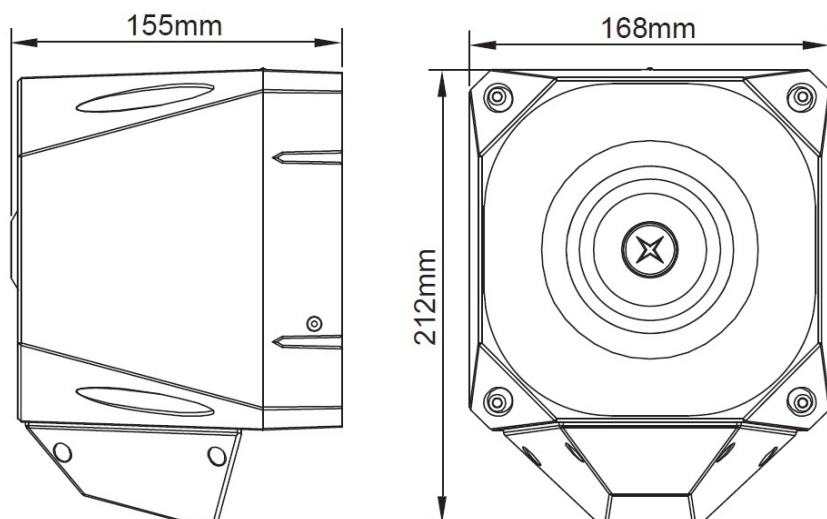

Description

High acoustic power siren with focus for industrial use. Certified according to EN 54-3. IP66 protection suitable for most environmental conditions.

Fully integrated high efficiency beacon optimized for light scattering, 42 selectable alarm tones and 3 alarm phases.

Dimensions

TECHNICAL CHARACTERISTICS

Housing Color:	Red
Lens Color:	Red
Light effect:	Flashing
Mount Style:	Surface Mount
Case Material:	ABS, PC
Number of Tones:	42
Temperature range:	-25 to + 70 ° C
Voltage:	18-30 Vdc 230 Vac
Output:	110dB (A) 120dB (A)
Chime Type:	Acoustic Electronic
Bulb type:	Xenon
Current Type:	AC
Protection:	IP66
Weight:	DC version: 1.8Kg Main version: 2.5Kg
Voltage:	18 - 30Vdc 230Vac

Siren consumption:

110dB (A) 105mA / 24Vdc (Tone 3)
120dB (A) 450mA / 24Vdc (Tone 3)
110dB (A) 40mA / 230Vac (Tone 3)
120dB (A) 65mA / 230Vac (Tone 3)

Focus consumption:

120 - 620mA / 24Vdc (depends on configuration)
15mA @ 230Vac
